

PADI Enriched Air SCUBA Certification

303 Potrero Street #15, Santa Cruz, CA 95060 • (831) 458-3648 • On the web @ www.asudoit.com

We're embarking on a new age of sport diving, in which greater and safer limits are to be realized. Tech Diving, much in the media spotlight over the last few years, involves a group of sport/commercial hybrids that pushed the outer limits of SCUBA in deep, wreck and cave exploration. What distilled out of the *Twilight Zone* of technical diving is the concept that divers can *enrich their air* by adding oxygen to the air to attain longer dives or safer profiles within sport diving depths.

Nitrox is the new gas for sport divers!

By enriching air with oxygen, the amount of nitrogen in the mixture is decreased – thereby lessening your obligation to decompression.

Using Nitrox within air limitations gives you an added margin of safety. If you're looking to extend your bottom time, Nitrox can do this, and significantly! Additionally, most divers report having less post-dive fatigue when diving with Nitrox.

As more and more liveaboards and dive destinations offer Nitrox, the easier it will be to extend your bottom time and therefore increase the value of your vacation.

Prerequisites/Age:

- ❖ At least 15 years old
- ❖ Advanced Open Water Certification, or
- ❖ Open Water Certification with at least ten logged dives beyond the open water certification
- ❖ Experience in deep diving up to 100 feet

Class Includes:

- ❖ 2 lecture sessions
- ❖ 2 ocean dives

Students Must Provide:

- ❖ All appropriate SCUBA equipment (*may be rented*)
- ❖ PADI *Enriched Air Diver Manual*
- ❖ Dive slate
- ❖ Dive tools (knife or scissors)
- ❖ Calculator (recommended)

Student Fee Includes:

- ❖ All class instruction¹
- ❖ Certification fee

1. There is an additional fee of \$50.00/hour for missed sessions.
2. Boat fee based on charter used.

Cost:

- ❖ \$150.00 Student Fee (all instruction)
- ❖ Nitrox tank rental fee (price varies)
- ❖ \$80.00/\$90.00 Boat Fee²
- ❖ \$30.00 PADI Certification fee

Class Schedule:

- ❖ Classes start about every two months
- ❖ Lectures during two weekday evenings
- ❖ Open water dives on a weekend

***Longer no-deco limits
Shorter surface intervals
Less post-dive fatigue
Safer profiles when using air limits***
